

REUSABLE SHOPPING SYSTEM

NO MORE PLASTIC BAGS

**A system of 4 bags that can help you pack your shopping
in half the time at the supermarket checkout.**

Trolley Bags Original

Trolley Bags are a system of reusable shopping bags that are used to pack your shopping at the supermarket checkout. In one simple action the trolley bags system spreads out and rests on any supermarket trolley giving you a series of open and upright bags into which you can pack and sort your shopping with both hands.

Trolley Bags Express

Trolley Bags Express are the newest of the Trolley Bags systems, sized perfectly to fit the shallow shopping trolleys and ideal for customers who do smaller food shops.

Cool Bag

Trolley Bags Original Cool is designed to fit perfectly into Bag 1 of the Trolley Bags Original Set. You now have an insulated bag you can fill with all your cold items. Once full, the bag can be zipped up and removed from the trolley with the Bag 1 handles.

Xtra Bag

The Xtra bag can be flattened for easy transportation, and quickly opened into its stable box shape in seconds. Great for those little shops when you're only picking up a few items. The Xtra Bag can also be used for protecting fragile items within your trolley, such as eggs, bread or cakes, by being hung inside or outside the trolley as you fill it with shopping around the store.
